Copilot studio & PMO Data: Crafting the Ultimate Assistant

Date & Time

20 March 2024

12:00pm – 1:00pm EST

ERIK VAN HURCK

2024
WEBINAR
SERIES

About the Webinar

Efficiency and automation are key.
Copilot studio combined with PMO Data
can create a game-changing assistant for PM's.

Today I'll show you how to harness the capabilities of
Microsoft's Copilot studio to effectively handle PMO data
and improve project management operations.

About the Speaker

It is my mission to help the PMO succeed with Microsoft Technology.

Working at consultancy firms for close to 20 years. Configuring, educating, installing Microsoft applications.

Easily create a chat bot infused with Generative AI.

How it could work at your organization:

Price and security

COST

Microsoft Copilot Studio is priced at \$200.00 per month, which includes up to 25,000 messages per month.

This platform allows users to create and customize copilots using various tools and capabilities, such as generating conversations, automating workflows, and integrating data using over 1,000 prebuilt connectors.

It's designed to work across different channels, including websites and social media, to engage users effectively.

SECURITY

Copilot Studio currently leverage the GPT-3.5-Turbo model from Azure's OpenAI Service, meaning your prompts and outputs:

- are **NOT** available to other customers.
- are **NOT** available to OpenAI.
- are **NOT** used to improve OpenAI models.
- are **NOT** used to improve any Microsoft or 3rd party products or services.
- are **NOT** used for automatically improving Azure OpenAI models for your use in your resource.

“...this is the **era of AI Copilot**”

Satya Nadella

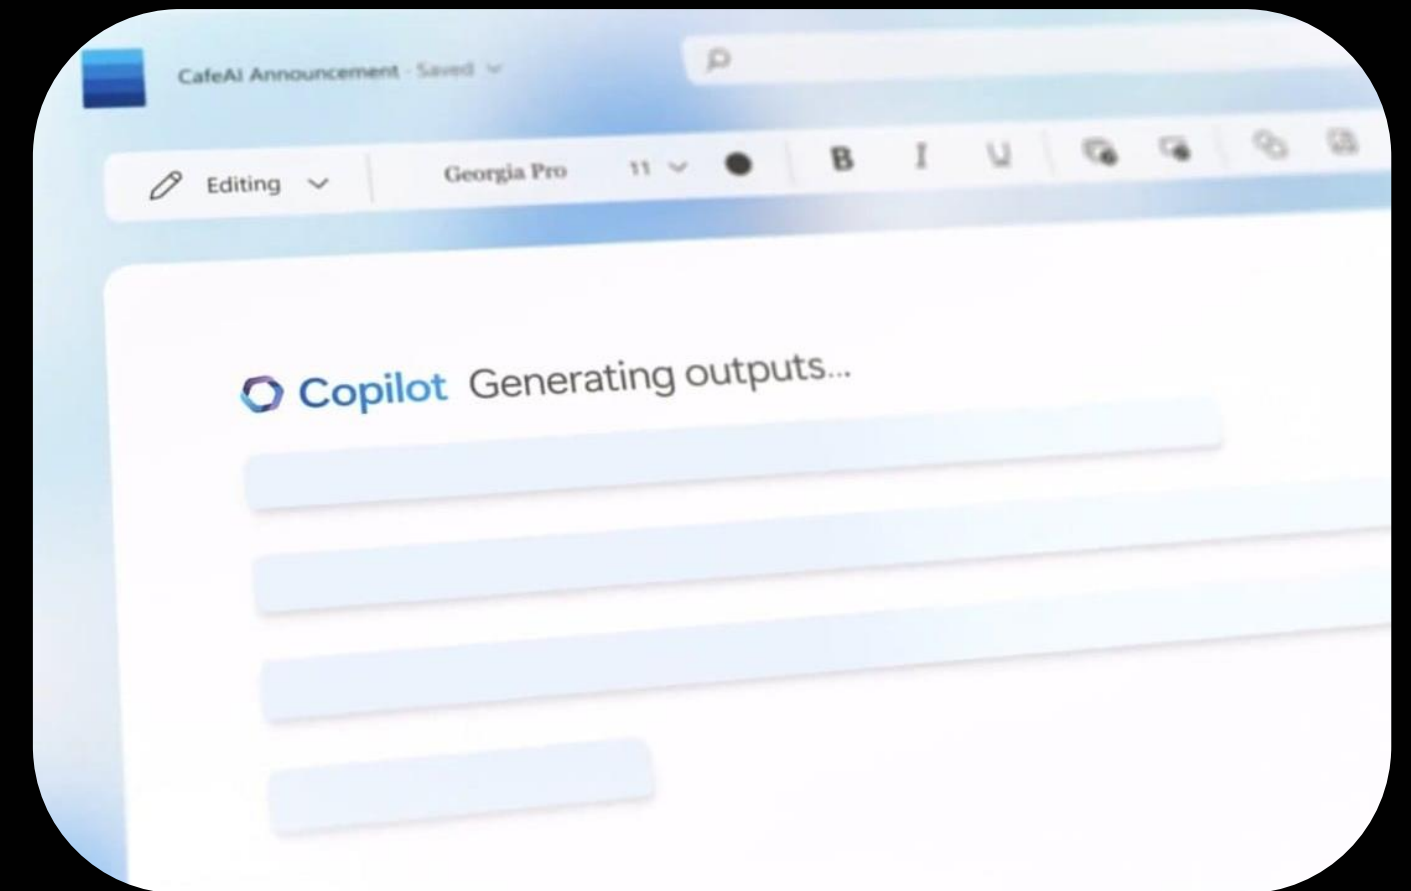

AI as a real-time collaborator

...that generates **content**

...that sparks **creativity**

...that automates **cognitive tasks**

...that completes **work**
